## BPI Contractor Energy Audit & Rebate

The Village of Sherburne Electric Department offers residential electric customers a weatherization rebate. The Weatherization Rebate is leveraging a Green Jobs – Green New York Free/Reduced-Cost Energy Audit program that Sherburne residents are eligible for.

Rebates will cover 50% of the materials cost for weatherization. There is a \$1500 maximum limit per house.

- Audits by a Building Performance Institute (BPI) certified contractor are recommended before weatherization improvements are performed. Audits are usually free!!!
- The BPI certified contractor will direct and assist you in applying for the Free/Reduced Cost Energy Audit.
- The audit report will list the recommended weatherization most beneficial for your home.
- The homeowner then decides (based on their individual budget) what weatherization items to complete from the list.
- The homeowner pays the contractor or if doing the work themselves, buys the materials
- The homeowner then submits a Village of Sherburne Home Weatherization Rebate Form to the Village of Sherburne.
- The rebate amount will be 50% of the materials cost – including 50% of spray-foam application, up to \$1500 for the paid invoiced amount of weatherization completed.
- The rebate covers 50% of the insulation (material only not labor), \$50 for each window, and \$100 for doors.
- For windows and doors, include the original NFRC label with the rebate form.
- Don't forget to replace the weather-stripping on your existing doors – 50% rebate for that too!!
